

INDRA K N

OBJECTIVE

As a Python backend developer, my mission is to architect robust and efficient server-side solutions that power modern web applications. I thrive on optimizing database performance, designing APIs, and ensuring seamless data flow. My goal is to contribute to innovative projects, collaborate with talented teams, and continuously enhance my backend development skills.

PROFILE SUMMARY

- Possess strong expertise in Python, with in-depth knowledge of the Django Web Framework and Django Rest Framework.
- Highly knowledgeable in user authentication and authorization within the Django Authentication and Authorization system.
- Skilled in collaborating effectively with front-end developers during back-end development.
- Strong foundation in Object-Oriented Programming (OOP).
- Proficient in both RDBMS (Oracle, MySQL) and NoSQL (MongoDB) databases.
- Experienced in managing Object-Relational Mapping (ORM) effectively.
- Proficient in using Git for version control and managing codebase activities.
- Demonstrated experience in developing RESTful APIs through various sample projects.
- Self-motivated and quick to learn new technologies, thrive in fast-paced and evolving environments.
